# News of Mine, of Prospect, of Furnace and of Mill.

## MANY DOLLARS FOR OLD MINES

New Haven Company of Bingham Loosens Up the Resourceful Sack Again.

WYITH which to make payments now materializing on a number of its acquisitions at Bingham, the Bingham and New Haven Mining company has placed to its credit in the banking house of McCornick & Co. in this city \$75,500, a very large portion of this going to the credit of Charles H Lashbrook, from whom the company procured the Morning Star, much of the balance going to the former owners of the Zelnora. It is said the balances exthe Zelnora. It is said the balances exacted of the company before the transters shall be formally made have been
reduced to small ones and will of course
be discharged the options shall require.
Since Bingham was entered by the
company it has prosecuted a very large
amount of work, has never failed to
meet its pay-rolls, and during the week
began the active forwarding of ores
from a channel on which the drift has
now advanced for 600 feet. In its success all Bingham in particular and micess all Bingham in particular and mi-ning circles generally will rejoice. Andrew J. Malloy, an Eastern representative of the company, arrived in the city yesterday and says the campaign of production will progress at the prop-erties in future as in the past.

#### LAST CONTRACT ON REVENUE MILL

The final contract for material and devices with which the Montana-Revenue mill at Norris, Mont., is being equipped, was yesterday awarded the Mines and Smelter Supply company, deliveries to be made as soon as condition shall per-mit. A letter from R. C. Knox, man-iger at the mines, advises the general offices in this city that construction on the new mill is progressing most satis-factorily and that he is confident of its completion in August, the piling up of profits to follow at once. The mines are controlled by Salt Lake and Colorado interests, with Hon. C. C. Parsons of Denver president of the company, and A. T. Bettles of this city the general

## STORY OF GOLD FROM DE LA MAR

Advices from De La Mar, Nev, during the day indicate that the bullion output of the Bamberger mill during the half month has exceeded that of any previous one under the present administration. President Simon Bamberger, who was asked with reference to the report, said he would be unable to verify it until today and requested that the figures, which are towering ones, be withheld until the official returns ar-rived from Superintendent Swindler. With the record now being made in the mines and at the mill he is very much pleased, however, and hopes to be able today to verify the report concerning the value of the latest clean-up.

It is well known that under the De La Mar ownership the mines were made to

net him a fortune during some of the months and while the attention of Pres-ident Bamberger was called to previous ecords yesterday's report was rejected by him as too cheerful to be true.

#### THE FINAL SURVEY IS COMPLETED

R. H. Strickland, railway engineer on the Newhouse staff, who is up from the new camp in the southern country, reports the survey on the branch between the camp and mouth of the long tunnel, from which the wealth of the Cactus copper and gold-bearing mines is to pour into the concentrator, now completed. The final survey discloses that three miles of track will be required to link the mines with the mill, although to connect with the ore bodies it has been necessary to drive a tunnel a dis-tance of 5800 feet. Mr. Strickland ex-pects to have this feature of the equipment completed within the next sixty days, grading having already begun at the lower end of the line.

In the town of Newhouse, two busi-ness houses have been launched, while the ladies and gentlemen of Frisco who rooped down upon it a few nights ago, taking with them their own music, made it possible to hold the first dance.

## TONOPAH STOCKS ORDERED LISTED

At a meeting of the listing committee of the Mining exchange during the afternoon Secretary Shorten was authorfred to add to the regular list on the board five Tonopah stocks, these including the Mac Namara, Jim Butler-Tonopah, Tonopah Extension, Belmont and Midway. Each is well known on the streets of Sait Lake, while in some of them the local investor is interested to no small extent The Jim Butler, indeed, has absorbed the holdings of a company that was organized here while its companions that will be listed today each has its local adherents. In addition to the cluster from the big Nevada camp Victoria of Tintic was admitted to fellowship. It has long been traded in on the street, while recent developments have made it a favorite.

#### Beautiful Castilla Springs

Hotel now open, Rates \$2 per day and up. Table d'hote meals, 50 centa. Popular-price cafe. Special rates to families and parties. For excursions and further information address J. Myers, 57 South State. U. F. Vall. Manager Hotel. Manager Hotel.

### THE STRIKE IN THE CREOLE

Richard Evans came down from Park City last night after an inspection of the Creole. Discussing the new ore body, Mr. Evans says he found it on the 106foot level off the main working shaft and about 150 feet beneath the surface. and about 150 feet beneath the surface. The ore occurs in the bedding in the quartzite and in virgin ground ground following a cross-fissure which is making up into the hill. The ore, according to a lot just settled for thirty-four ounces silver, 34 per cent lead and \$1.60 gold per ton, the carload bringing nearly \$500. This affords excellent idea of what may be relied on at depth. The company will resume work on the crosscuts on the \$600-foot level soon and excellent on the \$600-foot level soon and excellent. cuts on the 600-foot level soon and expects to reach the main contact in 200 feet from the present station. Another carload of ore is now being raised from the per field. the new field.

#### DECIDES THE FATE OF CHIEF OPTION

The alternate examination of the Chief mine at Caliente by George Z. Edwards, for so many years the superintendent of the Con. Mercur mines, intendent of the Con. Mercur mines, will probably decide the fate of an option secured some time ago by a syndicate headed, if not originated by Hon. C. O. Whittemore, who is now on his way to Los Angeles, where his representative will report to him. The property, upon which not a little work has been done under the option, was sampled several weeks ago by an engineer upon the staff of one of the big companies in this city. The result, it is said, was favorable, but the rule was observed and a verification asked for observed and a verification asked for. With this the option will be exercised, and the equipment of the mine with a

cyanide mill arranged for.
While Mr. Whittemore would not release the contents of the original report, he was manifestly pleased with

#### SIX FEET OF ORE IN NEVADA CAMP

The Springfield - Nevada Mining company, which owns nearly all of the large mining claims in Olinghouse the large mining claims in Olinghouse canyon, has struck it rich and the prospects of Olinghouse becoming a large mining town are brighter today than ever before. While sinking a shaft on the Cabin No. 2, which is one of the oldest mines in camp, a new ledge was struck. The ore goes from twenty to eighty dollars a ton and the ledge is over six feet wide. The old ledge is over six feet wide. The old ledge in the mine had been lost and the miners were searching for it when this new body of ore was found, says the Gazette of Reno, Nev.

#### ROAD TO ALTA

#### IS NOW CLEAR

Ernest Bamberger, assistant manager of the Daly West, came down from the Quincy mine at Alta yesterday morning and departed for the Ridge gold mines and mill in Oregon last night. Of conditions in the Quincy he reports them quite encouraging, with semo ore com-ing to the surface as work progresses in the search for the main channels. The road to camp is improving steadily, while in the main arena much ac

tivity is in progress.

At the Ridge mill he will make a clean-up of gold which, he has reason to believe, will be quite engouraging.

#### SALT LAKERS' LUCK AT LOS ANGELES

Reports from the Salt Lake com-pany's oil wells at Los Angeles continue most gratifying. From them to the market is at present being forwarded 1300 barrels daily, with this to be greatly increased as soon as it is pos-sible to complete the pipe-line and to place the product directly on the rail-way. Already the output is affording the company a nice income, while drills are going down in search of other flows. Prominent among those in the company are the Messrs Bamberger, J. D. Wood and F. J. Hagenbarth.

#### DAY'S OUTPUT OF

ORE AND BULLION

In the ore and builion market the day's settlements amounted to \$83,400, McCornick & Co. reporting them as they follow: American builion, \$48,200; gold, silver, copper and lead ores, In the metal market silver ruled at

55% cents an ounce, casting copper at 11% cents a pound, and desilverized lead at \$4.25 per hundred pounds.

#### Tonopah Stock Sales.

Monday's transfers on the San Francisco board were as follows: Esperanze, 4000 at 2@3c; Gold Mountain, 3000 at 2c; MacNamara, 9800 at 50@48c; Montana-Tonopah, 1550 at \$2.05@2.02½; Belmont, 1000 at 68c; 800 at 67c, seller ten days; Ray & O'Brien, 1000 at 7c.

#### Better Prices in Boston.

Special to The Tribune. Special to The Tribune.

BOSTON, Mass., June 15.—Trading in the Boston market is becoming more general. Copper stocks came in for a chare of activity this morning and better prices were to be seen throughout almost the whole list. Commission houses were inclined to buy a few shares, while traders took profits on some of their purchases of yesterday. The tone continues to improve and many brokers who have been cogervative are now more hopeful of a better market. Hornblower & Weeks, brokers, \$3 State street, Boston, and 10 Wall street, New York, furnish the following quotations:

If for any cause THE TRIBUNE is not delivered regularly to subscribers please call up Telephone 350 and notify the City Circulator. Your complaint will receive prompt attention. A standing reward of Ten Dollars (\$10.00) is offered for the arrest and conviction of anyone caught stealing THE TRIBUNE.

#### SELLERS VERY ACTIVE WITH SOME BUYING

For \$4058.25 the investor at yester day's sessions on the mining exchange was permitted to pack off 28 825 shares of stock, nor did every shopkeeper find a customer. Among the sellers Butler-Liberal was much in evidence, while Sacramento counters were freely pat-Sacramento counters were freely pat-ronized, its shares, in anticipation of the dividend which will be posted on Monday next, moving up to 15% cents, with its neighbor, Con. Mercur, drawing with its neighbor, Con. Mercur, drawing its curtains on the delivery of a single lot at 24½ cents. Tetro was again quite active among the traders, and closed on a transfer of 24½ cents, while Daly-Judge relaxed its hold on a small lot at 50 cents, with Century coming out to a bid of 72½. Mammeth of Tintic, which continues to come to market with a heavy tonnage, was marked down to 95 cents, the day closing on the following market. the following market:

## THE TRIBUNE NEWS STANDS MAJESTIC AGENT COMING TO UTAH

Will Apply \$100,000 to the Adjust ment of Claims Against the Ill-Starred Company.

MESSAGE received at the offices

of Whittemore & Cherrington yesterday brings the information that W. B. Mucklow will leave Hartford, Conn., tomorrow, as the representative of the Majestic Mining company with this city his destination. It is assumed that Mr. Mucklow, who was made president of the company about we years ago, is authorized to meet with the creditors and to adjust their claims to the extent that the \$100,000 recently subscribed by the Eastern shareholders can be made to go. That a cordial reception awaits Mr. Mucklow as the agent of the company the gentle-man, perhaps, need not be assured. His arrival is expected early next week, when a statement of how the moneys are to be allotted by him will probably be made. The creditors are all eager for it.

#### Mining Notes.

Superintendent Hickey, who was among yesterday's visitors from Park City, says that at the Comstock he is following a channel of ore below the 300-foot level and that everything is favorable to good results in a short time. W. W. Armstrong left for Park City again yesterday morning to make his regular inventory of interests there.

The delinquent sale of Silver Shield of Bingham will take place tomororw Manager H. S. Joseph of the Carisa left for that Tintic proposition last night to try and overcome delays in

the forwarding of seven carloads of ore Samuel Levy, acting manager of the Honerine of Stockton, reports nearly 300 tons of ore now going daily through the concentrator, with the output of first-class to be increased in a short time. Sinking below the 800-foot level will also be resumed in a few days.

Manager Jackling and Superintend-ent Janney of the Utah Copper com-pany left for its mill in Bingham can-yon and its mines on the great copperbearing zone yesterday morning.

Robert Rodgers, superintendent of the Dalton & Lark and Commercial groups at Bingham, has returned from the exposition at St. Louis and reports the affair too big to be told of in a single column. He was accompanied by Mrs. Rodgers and enjoyed a most pleasure vacation. pleasant vacation. The Mammoth's management sold

another carload of ore on yesterday's

The Grand Central of Tintic has \$25,000 on the way to its shareholders. Manager John Rhodin of the American Flag at Park City was in town again yesterday.

The Albion's Alta tunnel has now advanced 1785 feet into the properties, with three shifts advancing it. The Uncle Sam of Tintic had three

cars of concentrates at the sampler yes-terday, with three to follow. The Utah of Deep Creek will sell another lot of ore on today's market.

William Bayly, Jr., general manager of the Copper Belt railway, departed for Bingham yesterday morning. The Daly West of Park City paid its shareholders 40 cents a share, or \$72,000,

you that I can cure you I've m confidence enough in my treatment take all the chances. I am curing hun dreds of weak men and women ever day, and I know what I can cure and what I can't. If you will secure me ye

## Weak, Puny Men

I know that no man remains a weak-I know that no man remains a weakling because he wants to. I am sur
that you want to overcome every indication of early decay that has show
itself on you. I don't think the malives who would not like to feel as Me
and strong as a Sandow, and I knew
that if you have a reasonable foundstion to build upon I can make you a
bigger man than you ever hoped to be.
I want you to know that, you who
can't believe it, and I want you to have
my book in which I describe how I

my book in which I describe how learned that strength was only electricity, and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they was physical wrecks, and are now among the finest specimens of physical

I want you to read my book and learn the truta about my args I want you to read my book and learn the true about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, oss of vitality, prostatic troubles, nervous spells, varicocele or any aliment of that kind that weakens you would assure you future happiness it you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed free if you send this ad.

Dr. M. T. McLaughlin, 931 Stateenth St., Denver, 2010.
